

# CEIP MARQUESES DE LINARES

## SPAIN

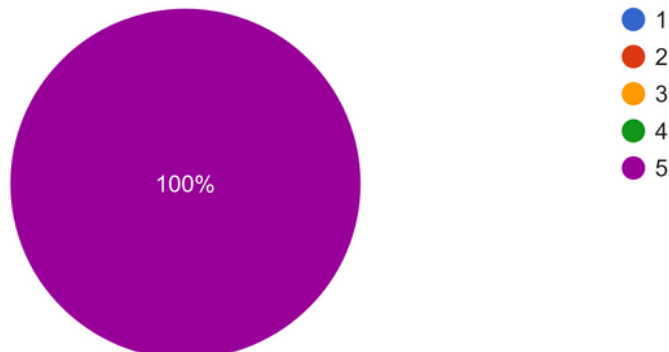

We created a questionnaire to evaluate the activities developed from the 7th to the 13th of May 2023 to all the participants. This questionnaire has two objectives, to know the point of view of the participants and also as a way of improving the programme.

Every question has the option to value it from 1 to 5, being 1 the less and 5 the maximum.

From this evaluation we can highlight the main positive points value from the participants, for example a 100% of the participants value the experience with the maximum (5 points).

How would you value your experience in the mobility?

5 respuestas

The also value the fact of knowing other schools and methodologies with the maximum ( 5 points).

**As a way of improving our programme we also included a question so the participants could include suggestions or feel free to write comments.**

**If you have any suggestion or any comment to improve our school organization related to the Erasmus project it will be welcome.**

**The teaching and administrative staff to continue to work as in this mobility**

**Everything was perfect.**
